in the last decade alone the world has changed in seismic ways as marriage equality has been ruled on by the supreme court social justice issues such as metoo and blacklivesmatter have arisen and issues of immigration and deportation have come to the forefront of politics across the globe thus there is a need for an updated text that shares strategies for combining canonical and young adult literature that reflects the changes society has and continues to experience the purpose of our collection is to offer secondary 6 12 teachers engaging ideas and approaches for pairing young adult and canonical novels to provide unique examinations of topics that teaching either text in isolation could not afford our collection does not center canonical texts and most chapters show how both texts complement each other rather than the young adult text being only an extension of the canonical within each volume the chapters are organized chronologically according to the publication date of the canonical text the pairings offered in this collection allow for comparisons in some cases for extensions in others and for critique in all volume 2 covers the canterbury tales 1392 through fallen angels 1988

john steinbeck once famously wrote that texas is a state of mind for those who know it well however the lone star state is more than one mind set more than a collection of clichés more than a static stereotype there are minds in texas don graham asserts and some of the most important are the writers and filmmakers whose words and images have helped define the state to the nation the world and the people of texas themselves for many years graham has been critiquing texas writers and films in the pages of texas monthly and other publications in state of minds he brings together and updates essays he published between 1999 and 2009 to paint a unique critical picture of texas culture

in a strong personal voice wry humorous and ironic graham offers his take on texas literary giants ranging from j frank dobie to larry mcmurtry and cormac mccarthy and on films such as the alamo the last picture show and brokeback mountain he locates the works he discusses in relation to time and place showing how they sprang or not from the soil of texas and thereby helped to define texas culture for generations of readers and viewers including his own younger self growing up on a farm in collin county never shying from controversy and never dull graham s essays in state of minds demolish the notion that texas culture is an oxymoron

the first lessons we learn in school can stay with us all our lives but this was nowhere more true than in the last decades of the fourteenth century when grammar school students were not only learning to read and write but understanding for the first time that their mother tongue english was grammatical the efflorescence of ricardian poetry was not a direct result of this change but it was everywhere shaped by it this book characterizes this close connection between literacy training and literature as it is manifest in the fine and ambitious poetry by gower langland and chaucer at this transitional moment this is also a book about the way medieval training in grammar or grammatica shaped the poetic arts in the middle ages fully as much as rhetorical training it answers the curious question of what language was used to teach latin grammar to the illiterate it reveals for the first time what the surviving schoolbooks from the period actually contain it describes what form a grammar school took in a period from which no school buildings or detailed descriptions survive and it scrutinizes the processes of elementary learning with sufficient care to show that for the grown medieval schoolboy well learned books functioned not only as a touchstone for wisdom but as a knowledge so personal and familiar that it was equivalent to what we would now call experience
