food within the ant colony each individual ant served a specific purpose while some ants went in search of food others brought what they found back to the anthill the queen ant who served as the colony's leader would always remain in the anthill to produce offspring after they emerged from their eggs the caterpillars fed on the food that was brought to them by the worker ants until they were mature enough to transform into adults andy cared deeply for his family and the people in his community and he exerted a lot of effort to ensure that they would all be safe every day even though doing so required him to leave the anthill he went in search of food he was never one to whine about the burdens of carrying heavy goods on his back he was aware of the significance of the strenuous effort he was making for the survival of his group andy's fervor and doggedness impressed the other ants who admired him for it they were aware that he played an essential role in the community and appreciated the work that he accomplished despite the challenges they faced the colony of ants living in the anthill was joyful and robust they were able to overcome any challenges by relying on one another and cooperating with one another andy was aware that he was only a minor contributor to a much larger group but he also understood the significance of his role he took great pride in the fact that he was an ant and that he lived in a colony that was so nearby
